

Keep your employees happy, healthy and productive with Care My Way @ Work

Give your employees a convenient way to get care for a variety of minor health issues without leaving work or taking sick time.

Employees can visit Care My Way @ Work during breaks or at lunch, rather than taking off a half or full day from work for an off-site doctor's visit, minimizing downtime and employee absences.

Care My Way @ Work allows your employees to seek care, free of charge, for minor conditions like sinus or urinary tract infections, as well as behavioral and occupational health conditions.

Care My Way @ Work connects you with a Marshfield Clinic Health System nurse practitioner through a free, virtual visit.

Employees talk to a nurse on the phone and have the option to video chat. With the innovative Care My Way @ Work device, the employee receives instructions to take their vitals. The device has an easy to use touch screen that guides them through the examination process. A Care My Way® nurse will advise on which vitals are needed based on the employee's symptoms. Additional equipment allows for blood pressure readings and ear exams for treatment of more conditions. The results appear instantly on the nurse's screen.

For a list of conditions treated with Care My Way @ Work, visit www.caremyway.org.

Learn how Care My Way @ Work can help your team. Call your Business Health Solutions Account Executive at 1-800-498-5514 for a demonstration.
